

# Where Do Over 300,000 Scrap Tires Go...

Playgrounds

Shredded Rubber Mulch

Rubber Running Tracks

PolyTurf Synthetic Grass

Resurfaced Highways

Gymnasiums

## GO Green Tire Drive & Round-Up April 26, 2008

Scrappy Green Recycles, Keep Atlanta Beautiful and the City of Atlanta has scheduled a Waste Tire Roundup as part of their Earth Day Celebration. The roundup will take place on Saturday, April 26, from 10:00 AM til 4:00 PM for citizens in the City of Atlanta. There are many tires littering our neighborhoods that need to be rounded up and recycled. Our goal is to collect 300,000 tires beginning Earth Day April 22nd and culminating on America Recycles Day November 15th the collected tires will be recycled and used to create eco-safe playgrounds, mulch for flowerbeds, flooring for school gymnasiums and outdoor tracks as well as many beautification projects in our communities. All residents with unwanted tires are encouraged to stop by one of the three available locations.

- Standard automobile tires, with the rims removed will be collected and recycled free of charge!!!
- We will take up to ten tires free (a disposal fee of \$2.00 per tire will apply more than ten tires)
- Truck tires will cost \$2.50 each and must be less than 67 inches in diameter.
- Oversized or tractor tires will be accepted for \$25.00 Fee
