EARTH FAIR

Earth Fair 2008 “Every Day is Earth Day presented by Scrapy Green Recycles in association with Keep Atlanta Beautiful

Earth Day comes once a year, but tackling the problems that effect our environment is a everyday issue

ATLANTA, GEORGIA – (March 22, 2008) – The Celebration of Earth Day will Kick off on Tuesday April 22, 2008 at DM Therrell High School this years theme is *Tire Trouble: Waste Tires in the Environment* We will continue the celebration on Saturday, April 26th, from 10am – 3pm . by hosting Earth Fair 2008 “Every Day is Earth Day” a day of education, celebration and action for the environment in which we live. In the spirit of Earth Day, and through the generosity of its sponsors, this event is free for the whole family!

Earth Fair 2008 will feature a wide-range of onsite activities the main event is a Tire Drive collecting discarded scrap tires and the launch of our recycling demonstrations, renewable energy usage to power the event. Scrapy Green Recycles will feature a series of Tire Drives and Round Ups every month beginning on April 26th in celebration of Earth Day and will culminate on November 16th America Recycles Day our goal is to collect 300,000 tires and remove them from the environment. Additional highlights of the day will include environment displays and demonstrations, interactive and educational booths by many local environmental non-profit and small business groups, performances by local and regional musicians, dancers and comedians, arts and crafts, and a Poster Contest for the kids.

We have partnered with the students and faculty of the DM Therrell High School, Atlanta City District 12 and Councilmember Joyce M. Sheperd we have made the commitment to help cleanup and green-up our neighborhoods.. Our goal is to collect and recycle tires and clean up the stockpiles and the illegal dumps that are littering our landscapes around the city. The collected tires will be recycled and used to create eco-safe playgrounds, mulch for flowerbeds, flooring for school gymnasiums and outdoor tracks as well as many beautification projects in the community. We are reaching out to businesses, governments, schools, community-based groups and civic organizations.

Keep Atlanta Beautiful is comprised of an all-volunteer board of directors representing all areas of the city and an advisory board of interested citizens. An affiliate of Keep America Beautiful and Keep Georgia Beautiful, this non-profit organization works in partnership with Atlanta City government’s Department of Public Works and Code Enforcement, state and federal litter enforcement and green space maintenance agencies, private industry, and local community groups. Together we assess needs for change, implement programs for improvement, and work toward the goal of a behavior change that will sustain a cleaner and greener Atlanta.

Scrapy Green Recycles Scrapy Green Recycles is a non-profit 501(c)(3) organization whose mission is to provide environmental education for youth in our schools to become good stewards of our planet’s natural resources and find innovative ways to teach children earth-friendly habits while reducing their contributions to the waste stream. Scrapy Green Recycles promotes eco-friendly events to clean-up and green-up Mother Earth. We are campaigning to fight tire pollution with the proper disposal of used and discarded tires. We are recycling tires to create eco-safe playgrounds with resilient material that can absorb the impact from falls providing added safety to children; highway sound barriers that soak up sound—to reduce highway noise; mulch replacement in medians or landscape areas for beautification projects and for resurfacing of athletic and recreational facilities. We are also committed to water and energy conversation to help reduce, reuse and recycle a must for protecting the environment.

Where Do Over 300,000 Scrap Tires Go...

Playgrounds

Shredded Rubber Mulch

Rubber Running Tracks

PolyTurf Synthetic Grass

Resurfaced Highways

Gymnasiums

GO Green Tire Drive & Round-Up D.M. Therrell High School Saturday April 26, 2008

Four million scrap tires are generated each year in the Georgia. Although many are disposed of properly, 15 million are currently stockpiled or illegally dumped. In addition to littering our landscapes, improper tire disposal often results in health and environmental hazards. Tires provide an ideal breeding ground for disease-bearing mosquitoes and animals. Whole tire disposal in landfills is prohibited. Illegal burning causes pollution as the oil contained in tires can contaminate the air and water.

There are alternative use for those tires, and how you can turn them in a soft playground landing for our kids in your own backyard!!

Come bring your tires to the
1st Annual Scrappy Green Tire Drive, helping to
make green playgrounds and clean up this type of
environmental eyesore now!

Kick-off Earth Day, April 22, 2008
at Various Locations.

TIRE DISPOSAL

Car Tires

Ten (10) Free - \$2.00 each

Large Auto & Light Truck Tires

\$4.00 each

Heavy Truck Tires

\$10.00 each

Rear Tractor

\$25.00 each

For tires with rims, there will be an additional cost of \$5 per rim.
